BOARD OF DIRECTORS

BOARD MEMBER CONFLICT OF INTEREST (revised 4/18/16)

Board members shall at all times comply with applicable law as it relates to conflicts of interest, including, specifically, MCL 15.321, et seq. In accordance with the Michigan statutory provision:

- A. A Board member shall not directly or indirectly solicit or be a party to any contract between the Academy or himself or herself; any firm, including co-partnership or other unincorporated association of which he or she is a partner, member or employee; any private corporation of which he or she is a stockholder owning more than 1% of the total outstanding stock of any class of stock if the stock is not listed on a stock exchange; any public corporation of which he or she is a director, officer, or employee, or of which he or she has stock with a present total market share in excess of \$25,000.00 if the stock is listed on a stock exchange; or, any trust of which he or she is a beneficiary or trustee, unless the Board member, before the contract or transaction is considered by the Board of Directors, promptly discloses the pecuniary interest he or she may have in the contract or transaction in accordance with Paragraph B, below, and he or she thereafter abstains from participating in any discussion of the matter and from voting on the contract or transaction, as set forth in Paragraph D, below.

It is not the intent of this Policy to prevent the Board of Directors from authorizing a contract or transaction with a private or public corporation, partnership, unincorporated association, business, trust, or any other type of entity merely because a Board member is a staff member, stockholder, officer or director of any such entity.

- B. A Board member must promptly disclose his or her pecuniary interests in any prospective contract or transaction with the Academy to the Board of Directors in the following enumerated ways, and such disclosure shall be made a matter of record in the Board of Directors minutes:
1. If the Board member will directly benefit from the contract or transaction in an amount less than \$250.00 and less than 5% of the public cost of same, or if the contract is for emergency repairs or services, then the Board member shall file a sworn affidavit to that effect with the Board of Directors either prior to or at the public meeting at which the Board of Directors shall consider the contract or transaction.
 2. If the amount of the direct benefit to the Board member is in excess of the lesser of \$250 or 5% of the public cost of the contract over the term of the Agreement, then the necessary disclosure shall be made as in this sub-paragraph or as in sub-paragraph C, below. The Board member shall promptly disclose his or her pecuniary interest in the contract or transaction to the Board of Directors President or presiding officer at least seven (7) days prior to the public meeting at which a vote shall be taken on the contract or transaction. This disclosure shall be included in the public meeting notice of said meeting. In the event that the Board of Directors President or presiding officer is the party of interest in the contract or transaction, the written disclosure shall be made as above, but to the secretary to the Board of Directors.

3. If the amount of the direct benefit to the Board member is greater than \$5,000.00, the Board member shall make this disclosure at a public meeting of the Board of Directors held at least seven (7) days before a public meeting at which a vote shall be taken on the contract or transaction.
- C. The minutes shall include all of the following with respect to a Board member's disclosure under Paragraph B:
1. The name of each party involved in the contract;
 2. The terms of the contract, including duration, financial consideration between parties, facilities or services of the Academy included in the contract; and
 3. The nature of any pecuniary interest.
- D. All contracts, transactions or other matters in which there is a disclosed pecuniary interest on the part of a Board member shall be approved by a 2/3 vote of the Board members elected to and serving on the Board of Directors without the vote of the Board member making the disclosure. However, if a majority of the members of the Board are required to abstain from voting on a contract or other financial transaction due to a financial interest, then for the purposes of that contract or other financial transaction, the members who are not required to abstain constitute a quorum of the board and only a majority of those members eligible to vote is required for approval of the contract or financial transaction.
- E. All competitive bids for material and labor submitted for the construction of a new school building, or the addition to or repair or renovation of an existing school building, shall be accompanied by a sworn statement disclosing any familial relationship that exists between the owner(s) or any employee of the bidder and any member of the Board of Directors of the Academy or the School Leader of the Academy. The Board of Directors shall not accept a bid that does not include a sworn and notarized familial relationship disclosure statement.

Travel by automobile, with reimbursement based on mileage, is considered the most cost-effective for the Academy and therefore the preferred method for all travel within the State of Michigan. Board members choosing other methods of transportation will not be entitled to reimbursement for any additional expense above the mileage method unless the Board of Directors has pre-approved that different mode of transportation at an open meeting.
- E. Mileage will be reimbursed at the current rate established by the Internal Revenue Service. - F. - G. The School Leader shall report the occurrence of a bullying incident to the parents or legal guardians of all students involved. The notification shall be via e-mail, telephone, personal conference and/or in writing and all notifications shall be documented. The Board of Directors seeks to protect those staff members and volunteers who may be exposed to blood-borne pathogens and other potentially infectious materials in the performance of their duties.

- A. A Bloodborne Pathogen Exposure Control Plan has been developed by the ESP to limit and/or prevent the risk of occupational exposure to blood and other infectious body fluids and the transmission of blood-borne disease.
- B. The School Leader is directed to implement administrative procedures, which will:

The annual budget adopted by the Board represents the allocation of resources required to operate the Academy. The Board places the responsibility of administering the budget, once adopted, with the ESP.

Budget Preparation and Amendment

- A. The Board has fiscal responsibility to safeguard the financial interests of the Academy. The annual budget is a financial expression of the Academy's operating plan. Its preparation is, therefore, one of the most important functions performed by the Academy Board. The budget shall be designed to carry out that plan in a thorough and efficient manner. The ESP and the School Leader shall present a proposed budget and/or analysis to the Board for their review. The Board shall review the analysis of the proposed budget prior to its adoption. When presented to the Board for review and /or adoption, the budget shall include the amount of purchased services for the current year and the ensuing year, the proposed expenditure in each function for the ensuing year, the anticipated expenditure in each function for the current year, the actual expenditure and the approved budget in each function for the previous year, an estimate of the student population by grade for the ensuing year, the sources and amounts of anticipated revenues and the amount of fund equity anticipated at the end of the current year.
- D. When funds allocated to a major function are insufficient for a proposed expenditure, the Board may, by an amendment resolution, transfer funds to that function from another function. However, the ESP and School Leader shall determine that the necessary surplus funds do exist in the other function and the proposed expenditure is educationally warranted in the current fiscal year.

Budget Adoption

The annual budget adopted by the Board represents the allocation of resources required to operate the Academy. The final adoption of the proposed annual budget shall be made by the Board after the completion of the public hearing, but no later than June 30th. - C. Listings of expenditures, appropriate financial reports, and budget comparison reports shall be submitted monthly to the Board to keep members informed as to the status of the budget and overall financial condition of the Academy.
- D. If, during the fiscal year, it appears to the ESP that actual revenues are less than estimated revenues, including the available equity upon which then appropriations from the fund were based, the ESP shall present to the Board recommended amendments in alignment with the General Appropriations Act that will prevent expenditures from exceeding revenues. Such recommendations shall be in accordance with requirements of the law and provisions of negotiated agreements.

- G. Academy personnel should cooperate fully with Child Protective Services (CPS), Department of Human Services (DHS) and other governmental agencies.

The Board intends that its websites shall be accessible to all. While not all web pages can be made totally accessible, the Board will strive, to the extent technologically and economically feasible, to make its website(s) as accessible as possible. It is the policy of the Academy to monitor individual student academic growth in each subject area at least twice during the Academic year using a competency-based on line assessment. The results of the assessment shall be communicated to the student and his/her parents or guardians.

STUDENT RECORDS (revised 5/21/18)

The Academy shall annually notify parents/guardians and eligible students of their rights under the Family Educational Rights and Privacy Act (FERPA), 20 USC 1232g.

- A. The Family Education Rights and Privacy Act ("FERPA") requires that the Academy, with certain exceptions, obtain the written consent of the parent or guardian of a student prior to the disclosure of personally identifiable information from their child's education records. The Academy may, however, disclose appropriately designated "directory information" without written consent. The Academy will annually notify the community of the information it has designated "directory information" and provide parents/legal guardians an opportunity to advise the Academy, by submitting a signed opt-out form, whether any such information should not be released with respect to their child. The Academy shall present the opt-out form to each parent or guardian within the first 30 days of the school year.
- B. "Directory information" is information that is generally not considered harmful or an invasion of privacy if released. The information designated as directory information by the Academy shall be disclosed in the Family/Student Handbook each year, unless a parent or legal guardian advises the Academy not to include such information with respect to their child. The Academy may designate the following as directory information:

1. A playbill, showing a student's role in a drama production;
 2. The annual yearbook;
 3. Honor roll or other recognition lists;
 4. Graduation programs; and
 5. Sports activity sheets.
- D. Under The Uninterrupted Scholars Act (USA), educational agencies and institutions may release a student's education records, under court order, without notifying the parent, if the parent is involved in a court proceeding regarding child abuse and neglect or child dependency, and the court order is issued as a result of those proceedings.
- E. Armed Forces Recruiting
1. The Academy is required to provide United States Armed Forces recruiters with at least the same access to the high school campus and to student directory information (names, addresses, and telephone listings of secondary students) as is provided to other entities offering educational or employment opportunities to those students. "Armed forces of the United States" means the armed forces of the United States and their reserve components and the United States Coast Guard.
 2. If a student or the parent or legal guardian of a student submits a signed, opt-out form to the Academy that indicates that the student or the parent or legal guardian does not want the student's directory information to be accessible to official recruiting representatives, then the officials of the school shall not allow that access to the student's directory information. The Academy shall ensure that students and parents/guardians are notified of the right to refuse disclosure of any or all "directory information" including to the armed forces of the United States and the service academies of the armed forces of the United States.
- F. The Academy may attempt to exempt from disclosure any "directory information" requested for the purpose of surveys, marketing, or solicitation, unless the School Leader or his/her designee determines that the use is consistent with the educational mission of the Academy and beneficial to the affected students. The Academy may take steps to ensure that directory information disclosed shall not be used, rented, or sold for the purpose of surveys, marketing, or solicitations. Before disclosing the directory information, the Academy may require the requester to execute an affidavit stating that directory information provided shall not be used, rented, or sold for the purpose of surveys, marketing, or solicitation.

 1. There is written approval from the student's physician or other health care provider and the student's parent/guardian to possess and use the inhaler; and
 2. The School Leader or his/her designee has received a copy of the written approvals from the physician and the parent/guardian.

- H. These students should be instructed by their parents/guardians to notify their teacher each and every time they use their inhaler so that frequent use can be communicated to the parents/guardians. It is recommended that an extra inhaler be kept in the Academy Office.
- I. Students with a need for emergency medication may also be allowed to self-possess and self-administer such medication, providing that they meet the conditions established in the medical action plan.

Non-prescription Medications/Treatments

- A. Non-prescription (over the counter) medications are those that are sold directly to the consumer without a prescription from a physician or health care professional. Non-prescription medications may include, but are not limited to, acetaminophen, ibuprofen, cough syrups, antihistamines, etc.
- B. Before any medication or treatment may be administered to any student during Academy hours, the Academy requires that the student's parent/guardian give the Academy written permission and a request to administer medication(s) and/or treatment(s) to their child.
- C. The Academy may choose to allow students enrolled in secondary education to possess and self-administer non-prescription (over the counter) medications as defined above with written permission granted by a parent or guardian and signed by the student, without additional instructions from a physician.
- D. Students may use a U.S. Food and Drug Administration (FDA) approved, over-the-counter topical substances at school, if both of the following conditions are met:
 - 1. If the student is a minor, the student has written approval to possess and use the FDA substance from his or her parent or legal guardian.
 - 2. The School Leader has received a copy of the written approval, if any were required.

PERFORMANCE ENHANCING SUBSTANCES

It is the policy of the Academy to strongly discourage a student's use of performance enhancing substances. A student's eligibility for participation in interscholastic athletics will be affected by the use of any performance-enhancing substance prohibited by law or MHSAA regulation.

- A. A student's eligibility for participation in interscholastic athletics will be affected by the use of any performance-enhancing substance as provided by law or MHSAA regulation. This includes, but is not limited, to those performance-enhancing substances banned by the National Collegiate Athletic Association, those identified on any list developed by the Michigan Department of Community Health, and any other such substances listed by the State Board of Education.
- B. A list of these banned substances will be available at the School Office.
- C. A loss of eligibility imposed pursuant to this policy shall be in addition to any other discipline that may be determined to be appropriate pursuant to the Family/Student Handbook.

- D. An Academy staff member, volunteer or student shall not knowingly:
1. Sell, market, distribute, or promote the use of a dietary supplement that contains a performance-enhancing compound to a student with whom the staff member or volunteer has contact as part of his or her duties as a staff member or volunteer, or
 2. Endorse or suggest the ingestion, intranasal application, or inhalation of a dietary supplement that contains a performance-enhancing compound by a student with whom the staff member or volunteer has contact as part of his or her duties as a staff member or volunteer.
- E. A violation of this section shall subject the person to discipline. In the case of a staff member this may include termination of employment.
- F. Student-athletes who are under a physician's care and who have been directed by a physician to use anabolic steroids due to a medical condition requiring such treatment must present proof of the physician's order to the School Leader.

PLACEMENT, PROMOTION, AND RETENTION (approved 5/21/12)

The Academy Board believes that children should be placed in the educational setting most appropriate to their needs at the various stages of their growth. The Board designates to the School Leader the authority to determine the placement, promotion and retention of all students.

The Academy believes that children should be placed in the educational setting most appropriate to their needs at the various stages of their growth.

Parents will be informed about their child's progress or lack thereof through progress reports, parent/teacher conferences, and report cards throughout the school year. Additional conferences may be scheduled with the parents to discuss the areas of difficulty and an intervention plan created.

The School Leader has the authority to determine the grade/unit placement, promotion and retention of all students under the following guidelines:

A. Grade/Unit Placement

The School Leader shall determine the appropriate placement for students at enrollment. The School Leader has 90 days after enrollment to determine if this trial placement in a class is appropriate or a change of placement is necessary. The following is a partial list of data that may be utilized in determining that placement:

1. previous and/or current placement
2. previous school records
3. parent request
4. attendance (or lack thereof)
5. testing results
6. grades
7. overall physical, emotional, social, and academic maturity of the individual student

B. Class Size

The class size for any class is ultimately determined by the School Leader or his/her designee. The School Leader shall determine class size in a manner that is consistent with the optimal educational achievement of all students.

- C. Promotion to the next grade is based on the following criteria:
1. current level of achievement
 2. potential for success at the next grade level
 3. emotional, physical, and social maturity
 4. a passing grade
- D. Retention
- Students may be retained if it is in his/her best interest. A student may not be ready to proceed to the next grade for any of the following reasons:
1. emotional growth
 2. social growth
 3. academic growth
 4. lack of sufficient attendance (refer to attendance policy in the Student Handbook)
 5. inadequate progress in their core academic classes
 6. inadequate Montessori foundation
- E. Parents shall have the right to appeal any placement, retention or promotion decision according to the following procedure:
1. Any appeal should be submitted in writing to the School Leader within 10 days of the School Leader's decision.
 2. A committee that includes the student's current teacher, a representative from Special Education or TST, the assistant principal (or a representative from the Curriculum department), the School Leader and other personnel as designated by the School Leader will conduct an investigation into the appropriate placement of the student based on the factors listed above.
 3. After completion of that investigation, the School Leader will give a written decision to the parents and the reasons for that decision. All decisions are final.

PUBLICATIONS -- SCHOOL-SPONSORED, CURRICULUM-RELATED PUBLICATIONS

The Academy may impose reasonable time, place and manner restrictions on the distribution of all student publications and communications and may prohibit any speech or publication which may be reasonably anticipated to cause substantial disruption.

School Sponsored Publications:

- A. The purpose of school-sponsored, curriculum related publications, including newspapers and other expressive activities such as radio, television, and theatrical productions, is education. School sponsored, curriculum related publications are non-public forums.
- B. The Academy, through its administration and staff, retains the right to review and control content over school sponsored, curriculum related publications to assure that student participants learn the lessons the educational activity is designed to teach; that readers, listeners, or viewers are not

exposed to material that may be inappropriate for their level of maturity; and that the views of the individual speakers are not erroneously attributable to the school or the Academy.

- C. The Academy, through its administration and staff, also retains the right to review and control speech or expressive material that is ungrammatical, poorly written, or inadequately researched, biased or prejudiced, or promotes vulgarity, profanity, nudity, sexuality, drug use, violence, or other inappropriate themes, or otherwise adversely impacts upon the interests and good order and functioning of the school or the Academy.
- D. Any speech or expressive materials which are obscene, defamatory, an invasion of a person's privacy, or otherwise plainly offensive, are prohibited in Academy sponsored, curriculum related publications.

STUDENT DISCIPLINE (revised 4/15/19)

An orderly school environment is necessary to promote learning. The Academy has outlined the expectations of all students and the disciplinary consequences for non-compliance in the Family/Student Handbook in accordance with the Revised School Code and applicable law. All students and parents/guardians will be provided a copy of the Family/Student Handbook and will be expected to acknowledge and sign their agreement to adhere to its provisions.

The Board hereby authorizes the School Leader to suspend students for up to ten (10) days and to conduct due process hearings for such suspensions. Mitigating factors must be considered. Appeals of suspensions for ten (10) days or less shall be directed to the School Leader and the School Leader's decision shall be final.

A Discipline Committee consisting of the School Leader, a Board member and a third member (either the Social Worker, Counselor or a teacher) will be created to consider the suspension of a student for more than ten (10) days or to expel a student. The Discipline Committee must operate under a rebuttable presumption that suspension or expulsion is not justified and should consider mitigating factors and options before suspending or expelling a student. The rebuttable presumption does not apply when a student possesses a firearm on Academy property, in an Academy vehicle or at an Academy sponsored event.

When the school administration recommends expulsion or suspension for more than ten (10) days, a hearing by the Discipline Committee must be conducted within ten (10) days.

Appeals of suspensions for more than ten (10) days or expulsion shall be directed to the entire Board and are only allowed for alleged violations of due process.

The Family/Student Handbook will set forth conduct which is prohibited and the disciplinary consequences. The following procedural protections are included:

Suspensions of 10 School Days or Less

The student will be provided:

1. Oral and written notice of the charges
2. An opportunity for the student to present his/her position

3. Parent Notification

Suspensions of more than 10 School Days and Expulsions

The student will be provided:

1. Oral and written notice of the charges
2. An opportunity for the student to present his/her position
3. Parent Notification

Where a recommendation is made for a long-term suspension or expulsion, a letter will be sent to the parent/guardian of the student which shall inform them of the following:

1. The alleged act of misconduct.
2. The applicable provision of the Code of Conduct and/or pertinent section of the Revised School Code.
3. The length of the proposed long-term suspension and/or expulsion.
4. The date, time and location of the scheduled hearing (if known).
5. That the hearing is not a formal legal proceeding and will not be conducted in accordance with court rules or rules of evidence.
6. The hearing will be closed to the public unless the parent and/or student request the hearing be open to the public.
7. Attendance at the hearing is not required but the Discipline Committee will take action based on the information presented.
8. That the student, at the hearing, may:
 - a. Be represented by legal counsel
 - b. Present evidence and call witnesses on his/her own behalf
 - c. Cross-examine witnesses who testify for the Academy administration
9. The right to appeal to the Academy Board for alleged due process violations only.
10. That if legal counsel is retained by the student/parent, the School Leader must be notified at least 48 hours prior to the hearing, so the Academy can make arrangements to have its own attorney present.

Restorative Practices

Restorative Practices shall be considered as an alternative or in addition to suspension or expulsion. Restorative practices means practices that emphasize repairing the harm to the victim and the school community caused by student's misconduct. Restorative practices should be the first consideration to remediate offenses such as interpersonal conflicts, bullying, verbal and physical conflicts, theft, damage to property, class disruption, harassment and cyberbullying.

The following information is also offered concerning matters involving student discipline:

- A. The Academy generally follows progressive discipline in determining the severity of the consequence to be imposed for violations of the Family/Student Handbook. Progressive discipline involves increasing the severity of the penalty each time the student displays inappropriate conduct. This process is intended to correct the behavior of the student; not to punish the student. The investigator will take into account all of the circumstances surrounding the incident, including, but not limited to: the nature, severity and frequency of the misconduct; the age; the student's disciplinary record; whether student has a disability; development and maturity of the students

involved; whether the violation or behavior threatened the safety of any other student or staff member; whether a lesser intervention would address the violation or behavior; whether restorative practices will be used; and the context in which the alleged incident(s) occurred.

- B. Under Section 1309 of the Revised School Code (MCL 380.1309), if a teacher has good reason to believe that the conduct of a student in a class, subject or activity constitutes conduct for which the student may be suspended pursuant to the Academy Code of Conduct, the teacher may suspend the student from the class, subject or activity for up to one full school day. The procedures required by Section 1309 shall be followed.
- C. During a period of suspension or expulsion, a student is not allowed on Academy property, in an Academy vehicle or to participate in or attend any before or after the school day Academy activities. This includes, but is not limited to, the student's attendance as a spectator, participant in sport activities, or weekend activities.
- D. Suspension and/or expulsion will be listed as an authorized absence within the student's attendance record.
- E. Pursuant to the Statewide School Safety Information Policy (MCL 380.1308), Academy administration and staff shall report and share information with local law enforcement agencies regarding student misconduct which may also constitute reportable offenses under the law and local agreement.
- F. Consistent with controlling law, all matters of student out-of-school disciplinary suspensions and expulsions shall be permanently maintained in a student's permanent educational record ("CA 60"), and shall be transferred to any other private or public elementary school in which the student may seek enrollment. However, such disciplinary records may be deleted upon graduation, except for expulsions for possession of dangerous weapons, arson, criminal sexual conduct, or the physical assault of a staff member, volunteer or contractor.

Discipline of Students with Disabilities

The rules of conduct apply to all students attending the Academy, including students with disabilities. Suspension and/or expulsion of students with disabilities who are found to have engaged in misconduct will occur only after following the processes prescribed by state and federal law.

Permanent Expulsion and Reinstatement

The Board shall follow the expulsion and reinstatement requirements and procedures set forth in the Revised School Code for verbal assault (MCL 380.1311a), physical assault (MCL 380.1310 and 380.1311a) and possession of weapons (MCL 380.1311). Verbal assault is defined as a threat of an immediate harmful or offensive touching, coupled with an apparent immediate ability to commit same, and which puts a person in a reasonable apprehension of such touching; or, the use of offensive language directed at a person, where such language is likely to provoke a reasonable person (example: excessive taunting or teasing, bullying or other verbal harassment); a bomb threat (or similar threat) directed at an Academy building, other Academy property, or an Academy event. For purposes of this policy, the definition of assault also includes written threats.

SEARCHES OF STUDENT'S PERSON, LOCKERS AND LOCKER CONTENTS, AND MOTOR VEHICLES (revised 5/19/14)

Searches of lockers, motorized vehicles and a student's person may be conducted where necessary to maintain the safety and security of the Academy community. Any such searches will strictly follow applicable legal standards.

- A. All lockers, cubbies, and other storage places assigned to students are the property of the Academy. At no time does the Academy relinquish its exclusive control of these storage places. Students have no expectation of privacy to prevent examination by a School official of lockers, cubbies or other school-supplied storage areas.
- B. The School Leader or his/her designee may search lockers, locker contents, cubbies or other school-supplied storage areas, as well as open lockers for repairs, at any time, without notice and without parent/guardian or student consent.
- C. The Academy assigns lockers, cubbies, and other storage places to its students for the students' convenience and temporary use. Students are to use these storage areas exclusively to store school-related materials and authorized personal items such as outer garments, footwear, grooming aids, or lunch. Students shall not use these storage areas for any other purpose, unless specifically authorized by the School Leader or his/her designee, in advance of students bringing the items to the Academy.
- D. Students are solely responsible for the contents of their lockers, cubbies and other storage places and should not share these storage areas with other students, nor divulge locker combinations to other students, unless authorized by the School Leader or his/her designee.
- E. The School Leader or his/her designee shall have custody of all combinations to all lockers or locks. Students are prohibited from placing locks on any locker without the advance approval of the School Leader or his/her designee.
- F. The School Leader or his/her designee shall not be obligated, but may request the assistance of a law enforcement officer in conducting a search. The School Leader or his/her designee shall supervise the search. In the course of a search, the School Leader or his/her designee shall respect the privacy rights of the student regarding any items discovered that are not illegal or against Academy policy and rules.
- G. When conducting searches, the School Leader or his/her designee may seize any illegal or unauthorized items, items in violation of board policy, Academy rules, or any other items reasonably determined by the School Leader or his/her designee to be a potential threat to the safety or security of others. Such items include, but are not limited to the following: firearms, explosives, dangerous weapons, flammable material, illegal controlled substances or controlled substance analogues or other intoxicants, contraband, poisons, and stolen property.
- H. Law enforcement officials shall be notified immediately upon seizure of such dangerous items or seizure of items that schools are required to report to law enforcement agencies under the Statewide School Safety Information Policy. Any items seized by the School Leader or his/her designee shall be removed and held by Academy officials for evidence in disciplinary proceedings and/or turned over to law enforcement officials. The parent/guardian of a minor student, or a

student eighteen (18) years of age or older, shall be notified by the School Leader or his/her designee of items removed from the storage area.

Motorized Vehicles

Student use of a motorized vehicle on Academy property is a privilege. Motorized vehicles brought onto Academy property by students are subject to search by the School Leader or designee, without notice or consent. In the case of a locked motor vehicle, every effort will be made to have the vehicle unlocked by the student before proceeding with the search.

Students who refuse to cooperate in allowing a search of a vehicle brought by them onto Academy property may be subject to disciplinary action.

Student's Person

The Board acknowledges the privacy rights of students and thereby requires that students not be subjected to unreasonable searches and seizures. In order to protect the health, safety, or welfare of the students under Academy jurisdiction, the School Leader is authorized to search a student's person or a student's personal items in the student's possession when there is a reasonable suspicion that the search will produce evidence that the particular student has violated, is violating, or is about to violate either the law, Board policies, Academy procedures as outlined in the Family Handbook or an Academy rule. The search will be conducted in a manner that is reasonably related to the objective of the search and not excessively intrusive given the student's age, gender and the nature of the infraction. All searches shall be carried out in the presence of an adult witness. If a pat down search of a student's person is conducted, it will be conducted in private by an Academy official of the same sex and with an adult witness of the same sex present. The search of a student does not extend to a strip search. No strip searches shall be conducted.

Technology

Academy computers, software and internet access are school property. Students are only authorized to use Academy computers and other similar educational technology consistent with the educational mission of the Academy. Academy officials may search school computers, software and internet access records at any time for any reason and without student consent. Searches of personal wireless communication devices will be conducted in line with the Technology/Internet Use/Cell Phones and Other Wireless Communication Devices Policy.

SECLUSION AND PHYSICAL RESTRAINT / CORPORAL PUNISHMENT (revised 5/21/18)

The Academy shall follow the procedures adopted by the State Board of Education for seclusion and physical restraint; for notification requirements and for required training. Corporal punishment, as defined by applicable law, is prohibited at all times.

The Michigan Department of Education (MDE) requires schools to implement a system of school wide positive behavior intervention and strategies (e.g. TST, Smart Character Choices, etc.) with the expectation that this approach will ensure seclusion and physical restraint are used only as a last resort in emergency situations for the safety of the student or for the safety of another. The Academy shall follow the procedures adopted by the MDE regarding seclusion and physical restraint, including procedures regarding notification and training requirements.

For purposes of this Policy, the following definitions will apply.

Seclusion

Seclusion is the confinement of a student in a room or other space from which the student is physically prevented from leaving and which provides for continuous adult observation of the student. It is a last resort emergency safety intervention that is necessitated by an ongoing emergency situation and that provides an opportunity for the student to regain self-control while maintaining the safety of the student and others. A room or area used for seclusion:

1. Must not be locked
2. Must not prevent the student from exiting the area should staff become incapacitated or leave that area
3. Must provide for adequate space, lighting, ventilation, viewing, and the safety and dignity of the student and others.

Seclusion does not include the general confinement of students if that confinement is an integral part of an emergency lockdown drill or another emergency or security procedure that is necessary to protect the safety of students.

Restraint

There are three types of restraint:

- A. Physical restraint involves direct physical contact that prevents or significantly restricts a student's movement. It is a last resort emergency safety intervention that is necessitated by an ongoing emergency situation and that provides the student the opportunity to regain self-control while maintaining the safety of the student and others. This policy does not forbid actions taken to:
 1. Break up a fight;
 2. Stop and assault;
 3. Take a weapon away from a student;
 4. Brief hold by an adult in order to calm or comfort;
 5. Use the minimum contact necessary to physically escort a student from one area to another;
 6. Assist a student in completing a task/response if the student does not resist or resistance is minimal in intensity or duration;
 7. Hold a student for a brief time in order to prevent an impulsive behavior that threatens the student's immediate safety (e.g., running in front of a car);
 8. Administer medication prescribed by and administered in accordance with the directions of a physician;
 9. Use an adaptive or protective device recommended by a physician or therapist when used as recommended;
 10. Use safety equipment that is used by the general student population as intended (e.g., seat belt or safety harness on school transportation);
 11. Be an integral part of a sporting event (e.g., a referee pulling football players off of a pile).
- B. Chemical restraint is the administration of medication for the purpose of restraint. Chemical restraint does not apply to medication prescribed by and administered in accordance with the directions of a physician.

- C. Mechanical restraint means the use of any device or material attached to or adjacent to a student's body that restricts normal freedom of movement and which cannot be easily removed by a student. Mechanical restraint does not include:
1. An adaptive or protective device recommended by a physician or therapist (when it is used as recommended).
 2. Safety equipment used by the general student population as intended (e.g., seat belts, safety harness on school transportation).

Mechanical restraint, chemical restraint, restraint that negatively impacts breathing or prone restraint are all prohibited. Physical restraint is only to be used in emergency situations and only if essential to providing for the safety of the student or for the safety of another.

Corporal Punishment

Corporal punishment is the deliberately inflicting, or causing to be inflicted, physical pain by hitting, paddling, spanking, slapping, or making use of any other kind of physical force as a means of disciplining a student. Corporal punishment does not include physical pain caused by reasonable physical activities associated with athletic training. Corporal punishment is prohibited at all times.

TECHNOLOGY / INTERNET USE / CELL PHONES AND OTHER WIRELESS COMMUNICATION DEVICES (revised 4/17/17)

The Academy is committed to the effective use of technology to both enhance the quality of student learning and the efficiency of Academy operations. It also recognizes that safeguards have to be established to ensure that the technology is used appropriately and only for such purposes. The School Leader is delegated the authority to determine whether students will be permitted to possess a cellular telephone or other wireless communication device in school, on school property, at after school activities or at school-related functions. All procedures for cell phones or other electronic communication devices are outlined in the Family/Student Handbook.

The following rules and procedures shall govern technology use at the Academy:

Phones, Computers, and Internet

- A. All computers, telephone systems, electronic mail systems, and voice mail systems are the Academy's property and shall only be used for educational and business purposes.
- B. The use of the Internet by Academy staff and students is a privilege, not a right. The Academy shall establish computer use agreements to provide guidance to staff and students concerning the appropriate and ethical use of Academy computers, software and other equipment as well as any networks that may be established.
- C. To access e-mail and/or the Internet, Academy staff and students must sign and return the Network and Internet Acceptable Use and Safety Agreement. All staff and students shall abide by the Academy's Internet Acceptable Use procedures.

- D. Academy staff and students will receive an account number or password only after signing the computer use agreement.
- E. The Academy will not be liable for the actions of anyone using the Internet through its connection. Staff and students shall assume full liability, legal, financial or otherwise for their actions. In addition, the Academy takes no responsibility for any information or materials that are transferred through the Internet. Inappropriate behavior or violation of the acceptable use agreement may lead to penalties including the revocation of the user's account, disciplinary action (including suspension or expulsion) and/or legal action.
- F. If the Academy allows staff, students and/or visitors to use privately owned laptops on Academy property, the user must sign the appropriate Network and Internet Acceptable Use and Safety Agreement.

Wireless Communication Devices

- A. Wireless communication devices (WCDs) are devices that emit an audible signal, vibrate, display a message, or send or receive a communication to the possessor. WCDs include, but are not limited to the following: cellular phones, Kindles, e-readers, I-pods, Wi-Fi enabled access devices, video broadcasting devices, tablets and laptops.
- B. Possession of a WCD by a student is a privilege, which may be forfeited by any student who fails to abide by the terms of this policy or otherwise engages in misuse of this privilege.
- C. If a personal WCD is used on Academy property, in an Academy vehicle or at any Academy–sponsored event, students must only use the Academy's filtered Network for data access (either wirelessly or through a direct connection).
- D. School Leader and his designee are authorized to conduct searches of WCDs possessed by students when there is a reasonable suspicion that the search will produce evidence that the particular student has violated, is violating, or is about to violate the law, Board policies, Academy procedures as outlined in the Family Handbook, an Academy rule, or any technology use agreement.
- E. Use of WCD's can create a distraction, disruption or interfere with the educational environment of the Academy. The Academy may prohibit students from the use or possession of any WCD on Academy property, in an Academy vehicle or at any Academy–sponsored event.
- F. The Academy may choose to provide or allow students to use WCD's, such as but not limited to e-readers and laptops, as part of their course work. The user must sign the appropriate Wireless Communication Devices (WCDs)/Cell Phone Acceptable Use Agreement and Network and Internet Acceptable Use and Safety Agreement as required by the Academy.
- G. Academy owned devices must be returned at the end of the school year and the student will be responsible for the replacement cost of any device damaged or not returned by the student.
- H. The WCD policy will be distributed in the parent-student handbook each year.
- I. Staff and students are personally and solely responsible for the care and security of their WCDs. . The Academy assumes no responsibility for theft, loss, or damage of a personal wireless communication device brought to Academy property, in an Academy vehicle, or at any Academy

sponsored activity or event, or the unauthorized use of such devices. Students and staff bring these devices at their own risk. If a theft occurs, the user should contact a school administrator to make him/her aware of the situation so it will be handled the same way as any other theft. Damage or theft is the sole responsibility of the owner.

- J. Staff and students are prohibited from using WCD's to capture, record or transmit audio and/or video of any staff member, students or other person on Academy property without express prior permission.
- K. WCDs, cameras, video cameras or any equipment that has video and/or camera capability may not be activated or used at any time in any Academy situation where a reasonable expectation of privacy exists, such as locker rooms, restrooms, and any other area where staff and students may change clothes.
- L. Pictures or videos taken in locker rooms or restrooms are strictly forbidden. Additionally, if any prohibited pictures or videos are taken and subsequently posted to the Internet, it will be considered an additional infraction. These students will be considered insubordinate and will be disciplined under the gross misdemeanors section of the discipline code of conduct.
- M. Staff and students are prohibited from using WCDs in any way that might reasonably create in the mind of another person the impression of being threatened, humiliated, harassed, embarrassed or intimidated. The transmission of sexually explicit messages including "sexting" is prohibited.
- N. Staff and students are prohibited from using WCDs to transmit test information or any other information in a manner constituting fraud, theft, academic dishonesty or violating the student expectations as outlined in the Family/Student Handbook.
- O. Any WCD being used in violation of these guidelines, the Network and Internet Acceptable Use policies and wireless communication devices policies and/or containing inappropriate material (as determined by the Academy administration) shall be immediately confiscated, returned only to a parent/guardian, permission to use the network possibly permanently revoked; may result in student discipline (including suspension and/or expulsion); and possible referral to law enforcement if there is suspicion of illegal activity (e.g., child pornography).
- P. Students refusing to relinquish their electronic device immediately upon request of a staff member will be considered insubordinate and will be disciplined according to handbook guidelines.
- Q. Confiscated phones, cameras, and/or electronic devices will be discarded if not picked up by a parent or legal guardian/guardian within 30 days. A notification of that disposal will be sent to the student's mailing address on file in the School Office prior to such disposal.
- R. These prohibitions are in effect any time on Academy property, in an Academy vehicle, or at any Academy-sponsored activity or event.
- S. Disciplinary action for a WCD violation can be imposed on an escalating scale ranging from warning to an expulsion based on the nature and circumstances surrounding the violation.

The Academy strictly prohibits students, parents, visitors and Academy staff from possessing, storing, making, or using a weapon on Academy property, in an Academy vehicle, or at any Academy-sponsored activity or event.

The term “weapon,” for purposes of this policy, means any object which, in the manner in which it is used, is intended to be used, or is represented to be capable of inflicting serious bodily harm or property damage, as well as endangering the health and safety of persons. Weapons include, but are not limited to, firearms, guns of any type, including spring, air and gas powered guns (whether loaded or unloaded), that will expel a BB, pellet or paintball, electric weapons, martial arts weapons, ammunition, and portable devices that use electro-muscular disruption to incapacitate temporarily, injure or kill. The term “firearm” is defined as any weapon (including a starter gun) which will or is designed to or may readily be converted to expel a projectile by the action of an explosive; the frame or receiver of any such weapon; any firearm muffler or firearm silencer; or any destructive device. The term “destructive device” means any explosive, incendiary, or poison gas bomb, grenade, rocket having a propellant charge of more than four (4) ounces, missile having an explosive or incendiary charge of more than a quarter ounce, mine or similar device, daggers, dirks, stilettos, knives with blades over three (3) inches, pocket knives opened by a mechanical device, razors, clubs, iron bars and brass knuckles.

This policy shall encompass such situations involving look-alike weapons, false fire alarms, bomb threats or intentional calls to falsely report a dangerous condition.

The School Leader or designee shall refer parents, volunteers, visitors and staff working at the Academy who violate this policy to law enforcement. The School Leader or designee may take necessary steps to exclude the parent, volunteer, visitor or staff working at the Academy from Academy property, an Academy vehicle or an Academy-sponsored activity or event.

A student who violates this policy will be referred to law enforcement; parents/guardians will be notified and the student will be subject to disciplinary action, up to and including possible expulsion.

Exceptions to this policy include:

1. Weapons under the control of law enforcement personnel;
2. Items pre-approved by the School Leader as part of a class or individual presentation under adult supervision, if used for the purpose of and in the manner approved (Working firearms and ammunition shall never be approved.);
3. Theatrical props used in appropriate settings;
4. Starter pistols used in appropriate sporting events;
5. The object or instrument possessed by the student was not possessed for use as a weapon, or for direct or indirect delivery to another person for use as a weapon;
6. The weapon was not knowingly possessed by the student;
7. The student did not know or have reason to know that that the object or instrument possessed by the student constituted a dangerous weapon;
8. The weapon was possessed by the student at the suggestion, request or direction of, or with the express permission of school or police authorities.

A person who possesses a valid concealed weapon license is also prohibited from carrying a weapon on Academy property, in an Academy vehicle or at any Academy-sponsored activity or event.

WELLNESS

The Academy is committed to providing a healthy school environment that enhances learning and development of lifelong wellness practices. The School Leader shall establish procedures to be used in the implementation of this policy.

The rules to be established by the School Leader shall address:

- A. Child Nutrition Programs will comply with federal, state and local requirements.
